EDUCATION

Pursuing a Master's degree, Bioinformatics

Sept.2014 - Present

- University of British Columbia, Vancouver, BC
- Supervised by Dr. Steven Jones at the Genome Sciences Centre, BC Cancer Agency
- 4 month lab rotations with Steven Jones, Wyeth Wasserman, and Denise Daley

Bachelor of Science, Biochemistry

Sept.2008 – May.2013

- University of British Columbia, Vancouver, BC
- Completed the Co-operative Education Program

M.SC. THESIS PROJECT

“Characterization of the normal thyroid reference epigenome”

In this study, we compare the consistency of chromatin state annotations across the epigenomes from the grossly uninvolved tumour-adjacent thyroid tissue of four human individuals using ChIP-sequencing and RNA-sequencing data. We examine 6 histone modifications, identify chromatin states using hidden Markov models, produce a new metric for model selection, and establish epigenomic maps of 19 chromatin states.

AWARDS

- 2016 🏆 CEEHRC Travel Award (\$1000)
- 2016 🏆 John Bosdet Memorial Fund
- 2015 🏆 Canada Graduate Scholarship Master's Award
(the CGS-M is a non-renewable award valued at \$17,500 for 12 months)
- 2014 🏆 CIHR Strategic Training in Health Research in Bioinformatics Award
(\$22,000/yr for 2 yrs)
- 2013 🏆 NSERC Undergraduate Student Research Award
- 2008 🏆 UBC President's Entrance Scholarship (\$2000)

PRESENTATIONS

Poster presentation, Intelligent Systems for Molecular Biology (ISMB) 2016 Conference	July 9 & 10, 2016
Poster presentation, BTP/IOP/GSAT 2016 Retreat	March 11, 2016
Oral presentation, Bioinformatics Research Rotation Presentation	July 24, 2015
Oral presentation, Bioinformatics Research Rotation Presentation	March 27, 2015
Oral presentation, Bioinformatics Research Rotation Presentation	November 28, 2014

EMPLOYMENT HISTORY

BCCRC | The University of British Columbia Jan.2014 – Aug.2014

Research Assistant at the Shah Lab

- Wrote Bash, Python, and R scripts for downstream analysis and pipeline development
- Produced figures and limited text suitable for scientific manuscripts
- Leveraged parallel computing for analyses on a compute cluster to increase efficiency and decrease runtime

BCCRC | Provincial Health Services Authority Sept.2013 – Dec.2013

Research Intern at the Shah Lab

- Ran automated analysis pipelines for data processing and data generation
- Wrote Bash and Python scripts to rename files, parse data, and wrap third party software
- Documented observations and comments on platforms such as the Atlassian Confluence Wiki, Atlassian Jira issue tracker, and Atlassian Stash Git management system

NSERC Undergraduate Student Research Award (USRA) May.2013 – Aug.2013

Undergraduate Summer Research Student in the UBC Department of Statistics

- Contributed to the development of an R toolkit for the management and delivery of data analytic course and research material
- Organized, within a budget, a small meet-and-greet coffee social to acquaint oneself with the UBC Statistics NSERC-USRA students and their supervisors

UBC Centre for High-throughput Biology May.2012 – Aug.2012

Linux System Administrator Assistant

- Created and updated documentation and protocols for internal use and for end users
- Created and setup user accounts on desktops, servers, and wikis
- Used a variety of softwares – including Nagios, Bacula, and CFengine – to monitor, backup, and perform system administrative jobs
- Provided troubleshooting services for users and kept record of the issues, challenges, solutions in Request Tracker

UBC Centre for High-throughput Biology Sept.2011 – Apr.2012

Bioinformatics Research Assistant at the Pavlidis Lab

- Independently processed and checked the quality of microarray data for the FishManOmics project headed by the Department of Fisheries and Oceans Canada
- Paid attention to detail to analyze, annotate, and curate Gene Expression Omnibus (GEO) datasets that were to be imported into the Gemma database
- Reported issues based on continuous evaluation of lab software (e.g. Gemma) across multiple operating systems including Linux, Windows, and Mac OS

Biofine International Inc. May.2011 – Aug.2011
Organic Chemistry Synthesis Laboratory Assistant

- Verbally communicated with supervisors to receive instructions for the execution of experiments
- Researched, experimented, and evaluated the method of Marfey's reaction for enantiomeric resolution of amino acids
- Multitasked in coordination between executing experiments, keeping records, restocking supplies, and cleaning glassware

A&W Food Services of Canada July.2007 – Oct.2010
Cashier

- Provided excellent customer service by responding in a timely manner, listening to what the customer has to say, and keeping an upbeat positive attitude
- Took initiative to find extra tasks when scheduled duties were completed

Pacific National Exhibition Fair time
Concessions Attendant at Triple-O's in August 2006, 2007, 2008, and 2009

- Maintained high standards of customer service during high-volume, fast-paced operations
- Handled currency and credit transactions quickly and accurately

VOLUNTEER EXPERIENCE

Helper, Software Carpentry workshop Oct.2016
Wayfinder, St. Paul's Hospital Feb.2013 – Apr.2013
Healthy Heart Resource Centre Clerk, St. Paul's Hospital May.2013 – Aug.2013
